

# Dumfries Model Flying Club

## NEWS AND EVENTS

At the beginning of each year the DMFC Social Secretary plans a programme of events which usually turn out to be the highlights of the main Club Flying Season. Of course all these events are subject to the suitability of the weather for model flying, and therefore sometimes have to be postponed or cancelled, so check here regularly for late changes to the Events programme.

These Club events are always very pleasant social occasions, and in some cases hot coffee and barbecue food are available to add to members' enjoyment.

The August Scale Day was a huge success and very well attended. It was also a pleasure to see some old friends who had been unable to attend for a few months.

The final Club Event of the year, "The End of Season Bash" on 4<sup>th</sup> November, was an even greater success, with even more former members and some new friends too, making it the biggest gathering of the year at our new flying site. Despite the rather gusty weather and an occasional sprinkling of rain, a lot of flying was done and with plenty of hot food and drink available it was also a highly successful social occasion.

The Club has made huge strides forward this year, and we now have a great new flying field with facilities we could never have dreamt of only a few short months ago.

Here's a montage of photographs taken through the year to remind us what a great year it has been for DMFC.
